## **ABOUT US**

As an established construction company, Tasfia Engineering & Construction ltd specializes in building works, civil engineering works, addition and alteration works, upgrading works, design and build projects, BTS tower infrastructure and property development.

Founded in 2018, but from the past 20 years, the team has sprouted as a civil construction including Telecom industry through the execution of number of Engineering projects, construction, equipment & form-work. We have been active in most aspects of the construction industry. The company has worked on both public and private projects, and these include building and civil engineering projects, private developers and home owners.

Tasfia Engineering & Construction ltd recognizes quality and safety as an integral part of its construction business. The company's commitment is to continuously provide the best services and also to deliver high quality standards to its customers.

It is also the company's policy to ensure timely handover, minimize defects and material wastage, maintain a safe and healthy working environment, and to provide constant training to its staff so as to improve their level of workmanship.

Tasfia Engineering & Construction ltd will continuously strive towards 100% customer satisfaction in all aspects such as cost, efficiency and quality.

## **MISSION AND VISION**

### **OUR VISION**

To be a respectable building contractor delivering beyond expectation, always. We will be known for leadership, commitment to our clients and excellence in everything we do.

#### **OUR MISSION**

### **OUR SERVICES**

### **CIVIL WORK**

Tasfia Engineering & Construction ltd has deep experience in dreamless sector of civil works, electrical works, building constructions and maintenance, Consultancy and Engineering Service, etc. Since enterprise needs are becoming more challenging, change is more frequent and projects require a variety of skills, we operate cross platform teams for initial site planning and design all the way to final execution and installation of new infrastructure.

The company serves its customers at every project phase, from strategy formulation through design, project management and implementation right through to support and upgrades.

Our experience of commercial services successes ranges from reservoirs, landfills, and retail development to road, residential and industrial complexes to telecom Construction of Roof Top and Green Field Tower and associated facilities, Telecom Civil Consulting, Power station and room construction, Site Boundary Wall, Guard Room to Intelligent Ventilation System (IVS) & Lighting System Installation and Fire protection system Supply and Installation services.

#### **DISMANTLE WORK**

There may come a time when a telecom service will no longer operate from a particular location. On the other hand, perhaps the site's equipment is so outdated that it is easier to start from the ground up than to try to renovate what is already in place. When either of these problems occur, Tasfia Engineering & Construction ltd can provide telecom Dismantle/Decommissioning services.

Unlike demolition of a simple structure, telecom demolition services are explicitly designed to solve

the unique problems that happen when telecom equipment is involved. This can include towers, batteries, internal equipment, hazardous material and communication shelter removal.

### **TOWER SETUP**

The telecommunication industry is more complex than ever. Telecommunication sites call for many different factors and require comprehensive installation, much of which you cannot

handle in-house. This is especially true if you need fast service. Our talented installation experts at Tasfia Engineering & Construction ltd offer telecom Tower installation services, which include:

- Horizontal cable tray fitting, pendulum support installation and grouting.
- Antenna fixtures installation.
- Antenna installation & alignment.
- Feeder routine, Earthing, weather proofing & labeling
- All work is to be carried out as per drawing.

### **OTHERS AREA OF EXPERTISE**

Others main Strength of Tasfia Engineering & Construction ltd lies in the blend of professionals, specialized and highly focused operation. Increasing customer's awareness is the strength where it excels over its competitors.

We also have following area of expertise:

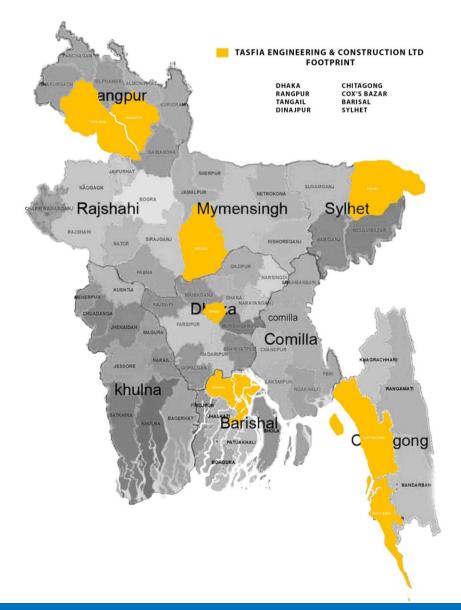

- Maintenance Work
- Logistics Support
- SAQ
- Damage
- Supply Accessories

## **OUR FOOTPRINT**

Tasfia Engineering & Construction ltd closely works for establishing business in all over Bangladesh. Targeted companies are jointly involved in providing various systems and solutions to different economic sectors and are considered as one of the fastest growing and leading solution provider company.
